

High performance reverb absorption

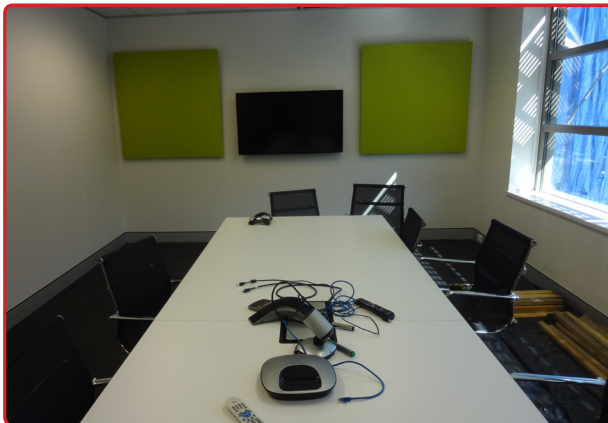

PQ Panels

PQ Panels combine proven open cell acoustic foam with open weave wool fabric to give highly effective reverb absorption in recording studios, video conference rooms, board rooms, home theatres, restaurants and wherever noise reverb is a problem.

PQ Panels are designed to be easily fixed vertically to walls or suspended horizontally from ceilings. They come with hanging eyes and isolation pads for you to hang or Peace & Quiet professional installers to install.

Choose from 30 colours in 100% pure wool fabric, fire rated to AS 1530.1.2.3.

Below: Reverb absorption panels in Video Conference Room
