

Absorbing Mechanical Noise

NoiseSorb[®] Mechanical Noise Absorption

The Problem:-

Noise from heavy machinery, mechanical plant, air conditioners and compressors, disturb workers and neighbours

Mechanical noise from machinery can be a health hazard in work places and residences.

The Solution:-

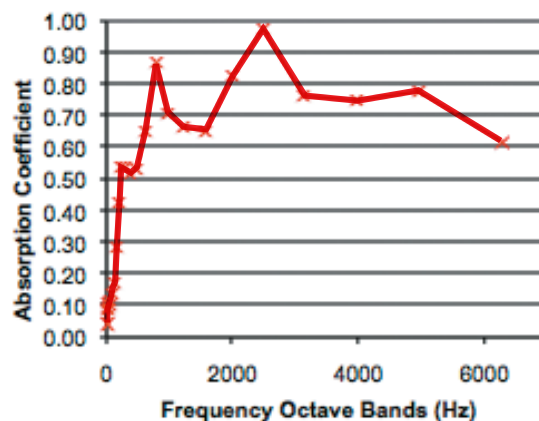

Noisesorb™ Mechanical Noise Absorption Panels.

NoiseSorb is an all weather noise absorption panel. They are rigid, self supporting fibre which is easy to cut and install on site, indoors and outdoors. Not affected by moisture, non-flammable, non-hazardous, non-toxic.

NRC 0.9

NoiseSorb to screen beside A/C unit

NoiseSorb Panels Specs:

Sound rating: NRC0.9
