

Peace & Quiet Group Pty Ltd Supply and Install Australia's widest range of noise insulation materials to attenuate noise in all new and existing buildings, to architects and acoustic engineers specifications and builder's requirements.

## ACOUSTIC BARRIERS

**Noisebar®** Australian manufactured and owned range of acoustic barriers, in densities, types and sizes for a wide range of applications. Base or Foil faced, fire rated. 4kg - Rw23, 6kg - Rw29, 8kg - Rw30.

## MECHANICAL NOISE ABSORPTION

**NEW NoiseSorb®** Mechanical Noise Absorption Panels are semi rigid dense soft fibre polyester panels not effected by moisture, non-flammable, non-hazardous. With NRC 0.9 when fixed near plant and machinery in mining, supermarket refrigeration and domestic air conditioning bring "peace & quiet" to nearby residents.

## PIPE and DUCT LAG

**Noisebar5** pipe-lag rolls and the new efficient pre-cut "flat packs" straights, bends, junctions and traps to quickly and effectively lag all waste pipes for a much lower cost. Meets BCA (May 2009) requirements.

## REVERB NOISE ABSORPTION

**PQ Panels®** combine proven open cell acoustic foam with near noise neutral open weave fire rated wool fabric to give NRC 0.9 and highly effective reverb absorption in video conference rooms, offices, school class rooms and restaurants.

## SOFT FIBRE ABSORPTION

**Polyroll®** Peace & Quiet's soft fibre absorption ROLLS in a wide range of densities and thickness made in Australia up to NRC 1.0.

## ACOUSTIC DOOR SEALS

Acoustic sealing systems for the widest range of door assemblies give sound transmission loss from Rw29 to Rw42.

Peace & Quiet can attenuate noise through roofs, ceilings, walls, doors, windows and floors in all situations to meet BCA and EPA requirements.
